APPLICATION FOR BACHELOR OF APPLIED SCIENCE 30-CREDIT MINOR IN ARTS

B.A.Sc. students may receive a notation on their transcript indicating a Minor in a specific Arts-related field if they complete at least 30 Arts credits in a single subject or field of specialization, 18 of which must be numbered 300 or higher. Students must choose courses that are acceptable for a Major in the appropriate B.A. program (see Faculty of Arts section of the Calendar).

An 18-credit Minor in Arts is also available. There is a separate application for this. See the Forms page of the Engineering Student Services website for details.

The following restrictions should be noted:

- A minor in Mathematics, Computer Systems, Cognitive Systems, or where there is significant overlap between the student's engineering program and the proposed subject or field for the Minor is not permitted.
- A dual degree and a minor in Arts cannot be combined, although a student may pursue a minor within the B.A. degree.

DEADLINE FOR SUBMISSION: MAY 15TH
